WELCOME

As part of our approach to events at Studio Spaces, all projects are tailor-made to the client's creative ideas and technical requirements.

We have had extensive experience at the venue working with brands, their agencies, private weddings and conference organisers enabling us to deliver unique and scalable services to suit all budgets.

The following pages include examples of previous events at Studio Spaces and are designed to outline the services that we can provide you and offer inspiration for future events.

SERVICES

Presentation & Creative Video Systems

Presentation, Live Band & DJ Audio Systems

Creative Video & Audio Content

Video Editing & Audio Post Production

Lighting Design

2D & 3D CAD Visualisations

Power Management

Set & Stage Design

EVENT CASE STUDY – AMAZON

BRIEF

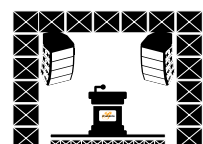

Contracted directly by the venue we provided an audio visual setup for an Amazon internal conference. Utilising the whole venue for reception and after session drinks PF designed and installed a full AV system suitable for this creative space.

EVENT CASE STUDY – WEDDING

BRIEF

The bride and groom approached us wanting a lighting design using classic fixtures in a contemporary style; the fairy light chandelier was conceived and installed in the Warehouse along with video mapping and DJ kit in the Black Studio. A few days before the wedding the bride's father contacted us and wanted to install some plasma screens for photo slideshows around the venue, of course this was arranged and installed...

EVENT CASE STUDY – QUICKBOOKS

BRIEF

The Quick Books Event team were holding a post event party at Studio Spaces after a weeklong conference in Tabaco Dock, PF Events designed a lighting, audio and staging set up suitable for live bands and speeches. Using the brand identity the venue was creatively transformed into a live-lounge.

EVENT CASE STUDY – REEBOK

BRIEF

The sports and entertainment department of respected agency M & C Saatchi contracted PF Events with a very clear and detailed creative brief to transform the venue into a super luxurious workout space for the launch of Reebok's new trainers: laser lighting, video mapping and DJ audio systems were all used to build the environment desired by the brand.
